

THE LOVE STORY MEDIA, INC.

BREAK YOUR HEART OPEN

The Mission

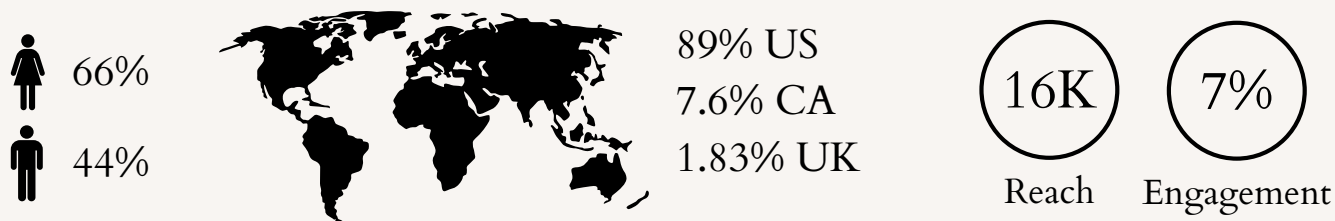

The Love Story's Mission is to inspire the broken hearted to transform pain into purpose through artist-inspired and journal-artist-inspired expressive writing.

Our flagship program, The Love Story Playbook, is designed to transform our tragedies into divine comedies in Seven Acts. We fuse journaling, journalism, with the personal journey, presented as fiction, based on a true story.

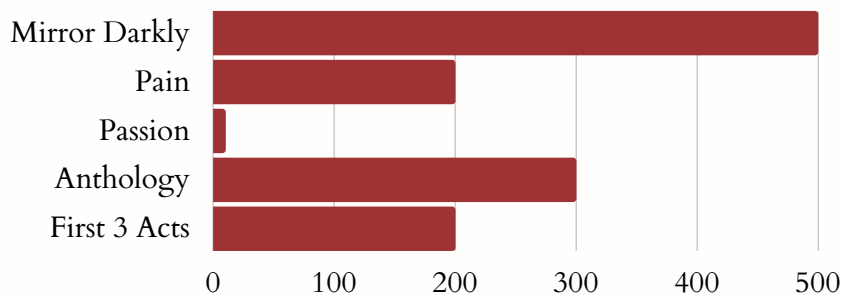

As Journal-Artists, we hope to experience the character arc and the story arc by learning and leaning into the discipline of love as defined inside 1 Corinthians 13. Through love, we will transform the main character in the story, transform a tragedy into a divine comedy, and transform the Journal-Artist writing the story.

The Seventh Act

The Seventh Act will begin developing in 2023. It is designed to integrate all journal entries written inside the Journal-Artist's divine comedy and the tragedy into a historical fiction. The key element that makes up the Seventh Act is trust in the Divine Goodness of Love Always, as in the Universe, or God, or Higher Power is always going to love you and look after you. From that place of faith, hope, and trust, the Journal-Artist is empowered to tell the full story, in true shadow and spiritual integration, presented as a novel.
